DETAILED ACTION

Reasons for Allowance

1. Claims 11-35 are allowed.
2. **Examiner's Statement of Reasons for Allowance:**

Applicant(s) invention relates to a multiple motor/generator system, and more specifically, to a configurable multiple reversible motor/generator system connected to a grid.

The system has a plurality of electrical induction motors capable to be utilized as generators with mechanical prime movers, as wind or hydraulic, and with electrical or mechanical loads, operating in the combination of motor modes or generator modes, as disclosed.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the number of operational modes and their possible combinations providing the required performance, which were interpreted by the examiner as they are disclosed and claimed, and which examiner's search failed to find.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant(s) disclosure.
